HOLIDAY GIFT GUIDE

Hello!

Bre Creative Design Co. started as an outlet for my never ceasing creative drive to be a maker. What started out as a business to pour my graphic design experience into my own projects I was passionate about, I still found myself wanting to do more and to actually create products as well as design them. I soon found my love for wood while wanting to find a way to recycle the wood we had leftover from a shelf project.

Shortly after, Bre Creative Design Co. took a new focus and I merged my skills as a graphic design and love for wood, becoming what I like to call a “wood designer”. Today I create unique (and custom) decor pieces for my clients homes, businesses and weddings. Ive also been lucky enough to all be able to live my dream of turning my passion into a full time career that allows me to also stay at home with my growing family.
